Lima, Peru | +51 918 091 590 | hg305718@gmail.com | [linkedin.com/in/ henry-quispe-cabello-1742a99b](https://linkedin.com/in/henry-quispe-cabello-1742a99b)

Full Stack Developer with over 5 years of experience creating custom solutions using Laravel and Vue.js. Expert in both backend and frontend, with experience leading E-commerce and ERP projects. Proficient in technologies such as Amazon S3, Amazon Rekognition, and Face++. Specialist in code optimization, API development, microservices, and payment gateways (Izipay, Culqui, Pago Efectivo). Skilled in databases like MySQL, PostgreSQL, and SQL Server, with a focus on scalable and efficient solutions. Familiar with modern CI/CD tools such as Jenkins and GitHub Actions, as well as Docker containers for deployment and testing. Advanced knowledge of version control with Git and Bitbucket, with additional skills in React and Node.js..

SKILLS

- **Programming Languages:** PHP, JavaScript (ES6+, Vanilla JS), Python
- **Main Frameworks:** Laravel, Vue.js, CodeIgniter, OpenCart
- **Front-end Development:** HTML5, CSS3, Bootstrap, Sass, Tailwind CSS, JavaScript (DOM manipulation, Axios, Fetch API), jQuery, React
- **Databases:** MySQL, PostgreSQL, SQL Server
- **Payment Integration:** Izipay, Culqui, Pago Efectivo (REST API, webhook integration)
- **Version Control:** Git, Bitbucket
- **CI/CD:** Jenkins, GitHub Actions, GitLab CI/CD
- **Containers and Deployment:** Docker (image creation, container configuration, Docker Compose)
- **Cloud Services:** Amazon S3, Amazon EC2, Amazon Rekognition, Face++
- **Development Tools:** Composer, NPM, Webpack, Vite

PROFESSIONAL EXPERIENCE

Dezain Studios

Full Stack Developer & Systems Analyst

Lima, Perú

January 2020 – Presente

- Designed scalable and maintainable software architectures.
- Provided technical guidance to the team on best practices and coding standards.
- Planned system adaptability, minimizing rework and downtime.
- Proposed and evaluated suitable technologies, considering performance and cost.
- Created documentation on architecture and design decisions.
- Analyzed system performance, identifying bottlenecks and proposing optimizations.

Achievements:

- Reduced maintenance costs and configuration times by 50%.
- Improved code quality, reducing production errors by 20%.
- Implemented optimizations that reduced response times by 35%.
- CI/CD automation decreased delivery time by 25%.
- Implemented new technologies that saved 20% in operational costs.

AppVentures

Full Stack Developer & Systems Analyst

Lima, Perú

September 2019 – January 2020

- Participated in the design of scalable software architectures.
- Collaborated with the team in following best practices and reviewing code.
- Assisted in planning adaptable architectures.
- Contributed to the proposal of appropriate technologies for projects.
- Created documentation on architecture and design decisions.
- Identified bottlenecks and proposed performance improvements.
